EXPERIENCE

04/2025 – Present
U.S.A

Omnibound, Aws DevOps&Security Engineer

- Designed and managed CI/CD pipelines using Jenkins, Git, Docker, and ArgoCD for deployments on AWS EKS and EC2, supporting AI/ML application workloads with secure delivery via Cloudflare CDN and WAF.
- Implemented SOC 2 compliance controls by integrating GitGuardian, ScoutSuite, OWASP ZAP, Sentry, Snyk, SonarQube, and AWS services (CloudTrail, GuardDuty, Security Hub, CloudWatch, Amazon Inspector) for vulnerability scanning and continuous security monitoring.
- Integrated and managed Aurora PostgreSQL for application workloads and Pinecone vector database for AI semantic search use cases, ensuring performance and reliability.
- Led a team of engineers in website development and cloud infrastructure management using AWS services (EC2, S3, RDS, SQS), driving delivery of scalable and secure solutions.
- Strengthened system security and observability by implementing IAM best practices, VPC design, WAF, and monitoring stacks (CloudWatch, ELK).

02/2023 – 01/2025
Bangalore

Omnineura AI Technologies, Azure DevOps Engineer

- Hands-on experience with Azure DevOps (Azure Repos & Pipelines) to build and manage CI/CD pipelines for microservices-based applications, enabling automated and reliable deployments.
- Strong experience in deploying and managing applications using Azure App Services and Azure Kubernetes Service (AKS) with Docker and Azure Container Registry (ACR).
- Worked with core Azure services including Azure Blob Storage (static frontend hosting with CDN), Azure networking, and Azure RBAC to support secure, scalable cloud deployments.

EDUCATION

08/2019 – 04/2023

B.Tech Electrical & Electronics Engineering, KITS, Warangal
Percentage - 71.6
